FTAA = MAI + NAFTA = DEATH

**DEATH to democracy, indigenous rights, environment,
human rights, culture, women's rights, sovereignty, healthcare,
education, labor unions, food safety, LIFE**

The Free Trade of the Americas (FTAA) is the expansion of the North American Free Trade Agreement (NAFTA) to the 34 countries in the Western Hemisphere. This means the expansion of job losses and decreased wages; the annulment of environmental and indigenous protection laws; and an increase in maquiladora labor which is associated with high levels of pollution and brain damage in children. The FTAA is an international agreement that will remove barriers to trade, which include protections for the environment, land reform, human rights and labor. We can not allow the FTAA to consolidate corporate rule at the expense of the environment and human rights.

Resist the FTAA in Quebec City!

The Summit of the Americas is meeting
in Quebec City April 20-22 to discuss the FTAA.

Corporate Rule needs to be stopped!
This is your chance to say ¡Ya Basta!
